D. Identify Sections of the Bill That Will Generate the Additional Workload or Cost Increase**E. Expenditure Impact Details** (*Ties to totals in Section C*)**F. No Fiscal Impact or Will Not Require Additional Appropriations?**

Lines 63-65 permit -- but do not require -- the enrollment of certain four year olds in regular education contrary to the long established policy of the state: "A board may enroll a child in school who is not at least five years of age before September 2 of the year in which admission is sought if the child previously attended a public school in kindergarten or above as a resident in another state." In fact, some districts already do this -- at their own expense -- since the business rules used by the USOE in calculating enrollment and aggregate membership exclude four year olds. This business rule will not change, so the bill will have no fiscal impact, but will give legitimacy to the practice.

G. If Bill Carries Its Own Appropriation:**H. Impact on Local Governments, Businesses, Associations, and Individuals**
